PTW: Potato Tuberworm

BLH: Beet Leafhopper

OLH: Other Leafhopper

### FYI

Welcome to the 2012 Potato Update!!!

I would like to welcome everyone to the 2012 OSU-HAREC Potato Update. Our outlet for information on potato pest issues from Extension. We will continue striving to ensure that we provide our clients with the most objective, science-based information possible.

If you have followed *the Potato Update* in years past, we welcome you back for another season. You can find the *Potato update* online throughout the growing season at <http://oregonstate.edu/dept/hermiston/trap-reports>. Our reports will go out Friday afternoon or Monday morning.

The highlight of this week is the early presence of the potato tuberworm. More information can be found at <http://extension.oregonstate.edu/catalog/pdf/pnw/pnw594.pdf>.

On behalf of the OSU-HAREC Extension, we thank you for your continued support of our efforts. We wish everyone a safe and productive growing season. *Silvia Rondon*.

---

**LATE BLIGHT HOTLINE 1-800-705-3377**

The OSU Area-wide monitoring program support is provided by the Oregon Potato Commission and OSU Extension Service. **This is an alert system; growers are encouraged to install their own traps for field specific monitoring.**
